KONICA MINOLTA HEALTH CARE
SOLUTIONS, IT SERVICES & SUPPORT

Konica Minolta leads the way in helping healthcare providers across the continuum of care increase productivity, reduce costs and enhance security, making a significant difference in a time of shrinking budgets, reduced Medicare reimbursement, healthcare reform, value based care and increased demands for regulatory compliance.

In recent years technology continues to have a dramatic impact on the healthcare industry. In that vein, the digital transformation is revolutionizing patient care in new and exciting ways. By digitizing the system, health services can be provided at lower cost and higher quality. Konica Minolta with its All Covered's Healthcare IT practice offers innovative end-to-end technology products, solutions & services to Healthcare organizations to enable them in their digital transformation journey.

OPERATIONAL AND CLINICAL CHALLENGES

- Lost productivity from manual procedures converting paper records to digital format
- Broken processes resulting in higher operational costs and reduced staff and patient satisfaction
- HIPAA and HITECH compliance challenges
- Managing patient health across the continuum of care
- Improving the quality of patient care

PRINT & DOCUMENT MANAGEMENT SOLUTIONS

Intelligent Information Management

Konica Minolta offers an array of efficient document and enterprise content management solutions to providers of all sizes from ambulatory care to large integrated delivery networks.

- Easy transition from paper to digital files
- Enterprise-wide content management
- HL7 and customized EHR integrations

Workflow and Cost Management Solutions

Streamline workflows and reduce costs using our full suite of workflow management solutions and fax server technology:

- Minimize costs associated with managing multiple fax lines using advanced fax server technology
- Enforce print policies and control costs by tracking and managing user print behavior

Interoperability

Konica Minolta provides a secure, electronic means of sharing clinical documents with your referral partners right from the bizhub MFP using Direct messaging across national clinical networks, providing the following benefits

- Secure and standards-based format satisfying HITECH and HIPAA
- Lessen your reliance on inefficient and costly fax

Privacy and Security Management Solutions

Konica Minolta is innovating the industry through our delivery of solutions and services developed to comply with the many regulatory requirements established by HIPAA and HITECH. Our security solutions allow our customers to:

- Manage sensitive patient records through authentication, encryption and other solutions addressing HIPAA-mandated requirements
- Monitor access, use and distribution of documents to minimize exposure to costly and damaging data breaches
- Safeguard PHI on MFP devices with hard drive encryption, timed data deletion and network security settings using bizhub Secure Healthcare

All Covered's Value Based Care solution improve patient outcomes and drives performance results. The platform combines patient data from multiple sources like Clinical, Claims, Patient reported and genetics data so you can analyze and identify opportunities within your patient population to reduce costs, improve health outcomes, and generate revenue.

HEALTHCARE IT SERVICES

Along with the industry's most complete line of document imaging solutions, Konica Minolta offers healthcare providers IT Services from All Covered Healthcare IT Services to meet the organizations challenges. All Covered expands the power and productivity of Konica Minolta's end-to-end solutions by giving you powerful infrastructure infrastructure management capabilities and healthcare IT consulting services increasing security, compliance and efficiency, while minimizing IT costs.

HIPAA COMPLIANCE

HEALTHCARE ANALYTICS & VALUE BASED CARE

REVENUE CYCLE MANAGEMENT SERVICES

INTEROPERABILITY & INTEGRATION SERVICES

MFP SECURITY

HIPAA compliance related to security and confidentiality are critical concerns. To satisfy these requirements, Konica Minolta provides the industry's most comprehensive suite of standard privacy and security solutions.

Konica Minolta meets the Protection Profile for Hardcopy Devices, 1.0 (HCD-PP), an evaluation criteria for international security standards and ISO/IEC 15408 for digital MFPs (multi-functional peripherals) which replaces the old EAL3 evaluation criteria. HCD-PP compliance requires manufacturers meet extremely strict conditions when verifying the effectiveness of encryption of data storage and communication security. This level of compliance positions Konica Minolta bizhub MFPs well for use across the continuum of care, and for all clinical and administrative print requirements.

To enhance your HIPAA compliance strategy with:

- HID Proximity card
- Secure print
- Biometric authentication
- Enable MFP HDD & Network Security

INNOVATIVE SERVICES FOR PROVEN COST-SAVINGS AND AWARD-WINNING SUPPORT

In the paper-intensive world of healthcare services, reducing document costs can be a significant factor in improving profitability—and you can count on Konica Minolta to help. To help you handle healthcare documents more efficiently in both hard copy and electronic form, take advantage of our Managed Print Service program. By monitoring usage, measuring output and managing devices more effectively, our Managed Print Services program puts you in full control of your medical and administrative print/scan environment.
