

HP PageWide XL 4000 MFP

Do the work of two printers with one—faster and lower cost than LED¹

FASTER

Monochrome and color, faster than LED¹

- Move projects forward—up to 8 D/A1 pgs/min monochrome and color, quick 30-second first page out
- Print, scan, copy in a single device—integrated 1200 dpi scanner with advanced and convenient workflows
- It's simple—a single, easy-to-use device that meets all your printing and scanning needs
- Focus on your project, not the printer—up to 4 rolls with 100-page integrated top stacker

SAVE

Better document quality vs LED, lower cost¹

- Run at lower costs than low-volume LED¹—in monochrome and color
- Produce excellent technical documents—crisp lines, fine detail, smooth grayscales that beat LED²
- HP PageWide XL pigment ink for dark blacks, vivid colors, moisture/fade resistance—even on uncoated bond³
- Use half the energy per page compared to equivalent LED printers⁴

SECURE

Help meet tough IT, reliability standards

- Protect and manage confidential jobs more securely—retrieve documents at the printer with a PIN
- Help safeguard confidential information using a self-encrypting HDD with AES-256, Secure Disk Erase and IPsec
- Reduce time and costs of managing individual drivers by using HP DesignJet Universal Print Driver
- Rely on proven HP PageWide Technology for dependable production printing⁵

best of the best

¹ Fastest based on alternative low-volume LED printers and MFPs (under 7 D/A1 pages/minute) as of April, 2015. Operational costs based on low-volume LED technology under \$20,000 USD in the market as of April, 2015. Operational costs consist of supplies and service costs. For testing criteria, see hp.com/go/pagewidexlclaims.

² For output produced with HP PageWide XL printers and LED printers from different manufacturers and that represent greater than 50% of the annual shipments of LED printers in North America as of 2014 according to IDC. For testing criteria, see hp.com/go/pagewidexlclaims.

³ Compared to prints produced with HP 970/971/980 inks that are fade and moisture resistant per ISO 11798 Permanence and Durability Methods certification. For testing criteria, see hp.com/go/pagewidexlclaims.

⁴ Conclusions based on internal HP testing for a specific use scenario. Comparable printers using LED technology based on LED printers capable of printing 4 to 6 D/A1 pages per minute and which represent more than 80% of the share of mid-volume LED printers in the US and Europe according to IDC as of April, 2015. For testing criteria, see hp.com/go/pagewidexlclaims.

⁵ Proven HP PageWide Technology powers HP PageWide Web Presses—currently producing 4 billion impressions monthly—and HP X Series business printers.

Elevate your on-the-job productivity. The HP PageWide XL 4000 MFP consolidates monochrome and color printing, as well as print/scan/copy in a single device. Fast, quality document production keeps the focus on moving projects forward.

HP PageWide XL 4000 MFP

- Boost your productivity
- Set a new quality standard for your technical documents
- Save space, reduce complexity
- Easy to use, easy to manage
- A better choice for the office—and the environment

Boost your productivity

The HP PageWide XL 4000 MFP is designed to boost your productivity, whether you're printing a large project or a short job.

- With no warm-up time and ultra-fast processing, the HP PageWide XL 4000 MFP can finish printing most jobs by the time other devices are still getting ready to print the first page
- With a print speed up to 8 D/A1 pages per minute in both monochrome and color, dealing with peaks and printing large projects is no longer a hassle

Set a new quality standard for your technical documents

HP 841 PageWide XL Printheads, working with HP PageWide XL pigment ink, are designed to produce high-quality output with dark blacks, neutral grays, and vivid colors that are moisture and fade resistant.³

Accurate and reliable dot placement result in crisp lines, fine detail, and smooth grayscales. HP PageWide XL printers do not apply heat to the paper as part of the printing process, enabling very high levels of length accuracy ($\pm 0.1\%$).

Save space, reduce complexity

The HP PageWide XL 4000 MFP can do the job of two printers—faster and at lower operating costs than LED.¹ With a single device, you can save space and reduce complexity—you now have one less printer to manage on the network, and you no longer need to manage two sets of printing supplies.

Easy to use, easy to manage

HP PageWide XL Technology takes the hassle out of printing—there’s no need to decide whether to send a particular document to the monochrome or color device. The HP PageWide XL 4000 MFP produces monochrome and color in a single, easy-to-use device that can meet all your printing and scanning needs.

The intuitive touchscreen with detailed preview and customizable print, scan, and copy presets, helps prevent errors and puts comprehensive print/scan/copy functionality just a few clicks away. The status light provides at-a-glance status information from a distance.

Replacing ink or loading new rolls—no spindle needed—is simple and quick. And with four 400-ml HP ink cartridges and up to four 650-ft (200-m) long rolls, the HP PageWide XL 4000 MFP can run unattended for quite a long time.

A better choice for the office—and the environment

The HP PageWide XL 4000 MFP integrates easily into the office. Designed for efficient energy consumption, the MFP uses a standard office plug. Unlike LED technology, HP PageWide Technology operates without a fuser, generating reduced heat and noise—and produces no ozone.⁶ The HP PageWide XL 4000 MFP can be seamlessly integrated into the workplace with typical ventilation.⁷

Designed with the environment in mind, the HP PageWide XL 4000 MFP has earned a number of leading environmental credentials including ENERGY STAR® certification and EPEAT registration.⁸ ENERGY STAR® certifies products for superior energy efficiency. EPEAT helps identify “greener” computer and other electronic components. Qualified products meet rigorous criteria across the complete product life cycle—from materials restriction to packaging and air quality. The HP PageWide XL 4000 MFP uses half the energy per page compared to equivalent LED printers.⁴

1. Up to 4 rolls—automatic roll switching when a roll is depleted or a different page size is selected

2. 400-ml HP ink supplies

3. 8-inch touchscreen with status light that reports at-a-glance current status from a distance; detailed preview and scan, copy, print presets help prevent errors and enable effortless operation

4. Top stacker designed to save space and allows the printer to be placed against a wall; capacity up to 100 pages

5. Integrated 1200 dpi scanner—scan at speeds up to 3 in/sec (7.62 cm/sec) in color and 10 in/sec (25.4 cm/sec) in grayscale; scan to a variety of file formats and work with advanced and convenient workflows
